PITTSBURGH, Pennsylvania -- December 2, 2009 -Allegheny Technologies Incorporated (NYSE: ATI) announced that it has signed a five-year agreement with Spirit AeroSystems (NYSE: SPR) for the supply of nickel-based alloy and superalloy flat-rolled products for commercial airframe applications. The agreement covers products sold by ATI Allegheny Ludlum, an ATI operating company, to Spirit AeroSystems.

"We are pleased to be developing this new relationship with Spirit AeroSystems, which is the world's largest independent supplier of commercial airplane assemblies and components," said L. Patrick Hassey, Chairman, President and Chief Executive Officer of Allegheny Technologies. "This agreement is another step in our strategy to expand ATI's presence in the airframe segment of the Aerospace market."

ATI offers the aerospace supply chain a broad portfolio of Mission Critical Metallics(TM) and cutting tool systems for difficult-to-machine specialty metals.

Building the World's Best Specialty Metals Company™

Allegheny Technologies Incorporated is one of the largest and most diversified specialty metals producers in the world with revenues of \$5.3 billion during 2008. ATI has approximately 8,500 full-time employees world-wide who use innovative technologies to offer global markets a wide range of specialty metals solutions. Our major markets are aerospace and defense, chemical process industry/oil and gas, electrical energy, medical, automotive, food equipment and appliance, machine and cutting tools, and construction and mining. Our products include titanium and titanium alloys, nickel-based alloys and superalloys, grain-oriented electrical steel, stainless and specialty steels, zirconium, hafnium, and niobium, tungsten materials, and forgings and castings.
