

ALLOYS FOR TOMORROW'S CHALLENGING ENVIRONMENTS

At ATI (Allegheny Technologies Incorporated), our dedicated ATI Oil & Gas team understands the challenges you face. We're focused on meeting your needs and performance specifications with:

- CRAs (duplex, nickel alloys, Ti)
- Tungsten carbide cutting and machining tools for drilling and completions
- NORSOK approved material solutions for the Oil & Gas industry in Upstream, Downstream, Downhole and Unconventional Projects

For more information on how ATI Oil & Gas can fuel your success, visit us at:
